#### Metabrom Q AS\_8326\_ICL2 07/09/2014 02/01/2012

Revision: 12

### 1. Identification of the substance & the company

Chemical name	Methyl bromide		
Synonym(s)	Bromomethane, MBr		
Chemical formula Chemical family	CH 3 Br Halogenated alkane		
Molecular weight	94.94		
Type of product and use	For industrial use A broad-spectrum pesticide widely used as a powerful fumigant.		
Supplier	ICL-IP America Inc. 622 Emerson Road - Suite 500 St Louis, Missouri 63141, USA Tel:(314)983-7884 Fax:(314)983-7607 e-mail:msdsinfo@icl-group.com		
Emergency Telephone	Chemtrec: (800) 424-9300 Medical: PROSAR 1-888-875-1685 (24HRS)		

### 2. Hazards identification

GHS classification	Press. Gas Muta 2, H341 Suspected of causing genetic defects Acute Tox. 3 H331 Toxic if inhaled Acute Tox. 3, H301 Toxic if swallowed STOT RE 2, H373 May cause damage to organs through prolonged or repeated exposure by inhalation. Eye Irrit. 2, H319 Causes serious eye irritation STOT SE 3, H335 May cause respiratory irritation Skin Irrit. 2, H315 Causes skin irritation Aquatic Acute 1, H400 - Very toxic to aquatic life Ozone 1: H420 Harms public health and the environment by destroying ozonein the upper atmosphere
	the upper atmosphere

Keep container tightly closed</li> <li>P405 - Store locked up</li> <li>P501 - Dispose of contents/container in accordance with national and international regulations</li> </ul>
NFPA Ratings (Scale 0-4)	Health = $3$ , Fire = 1, Reactivity = 0

# 3. Composition / information on ingredients

Components	CAS No.	Weight %
METHYL BROMIDE	74-83-9	100

First aid	A 24-HOUR MEDICAL SURVEILLANCE PERIOD IS MANDATORY IN ALL CASES OF EXPOSURE TO METHYL BROMIDE, EVEN IN THE ABSENCE OF ANY IMMEDIATE SIGNS OF POISONING.		
Skin contact	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Call a poison control center or doctor for treatment advise.		
Most important symptoms and effects, acute or delayed			
- Eye Contact	Severe irritant Contact with liquid or high concentrations of gas with the eyes may cause severe but usually reversible injury involving temporary blindness.		
- Skin contact	Liquid splashed on clothing or leather or high gas concentrations held in contact with skin, may cause skin burns with large blisters appearing after several hours. Less severe exposures may cause itching skin rash even after several days. May be absorbed through the skin in sufficient amount to cause systemic toxicity.		

According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product name Product id Revision date Supersedes	Metabrom Q           AS_8326_ICL2           07/09/2014           02/01/2012			
- Inhalation	Acute poisoning from methyl bromide is characterized by marked irritation to the respiratory tract which may lead, in severe cases, to pulmonary edema. High concentrations may damage the liver, kidneys and central nervous system. Symptoms of poisoning include headache, dizziness, somnolence, vertigo, blurred vision, slurred speech, nausea and vomiting and possibly convulsions and coma. ONSET OF TOXIC SYMPTOMS MAY BE DELAYED FROM 30 MINUTES TO SEVERAL DAYS.			
- Ingestion	Severe irritant to mucous membranes and toxic poison if ingested, although ingestion is highly unlikely.			
5. Fire - fighting measures				
Suitable extinguishing media	Carbon dioxide, dry chemicals, foam, water spray (fog).			
Suitable extinguishing media Unusual fire and explosion hazards	Carbon dioxide, dry chemicals, foam, water spray (fog). Although it is considered practically nonflammable, methyl bromide can be ignited with a high energy source of ignition. Containers may rupture violently if exposed to fire or excessive heat for sufficient time. In confined spaces such as buildings or sewers, there is a danger of vapour accumulation, which may result in explosion in the presence of an ignition source. Will decompose from ca. 400°C releasing poisonous and corrosive fumes of carbon monoxide and hydrogen bromide.			

# 6. Accidental release measures

Personal precautions	Evacuate area and keep personnel upwind. Wear self-contained breathing apparatus in positive pressure mode.
Methods for cleaning up	If practicable, stop flow of vapour. Ventilate and/or allow to evaporate, keeping people away from the area until safe re-entry levels are shown by halide detector.
Environmental precautions	Avoid access to streams, lakes or ponds.

According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product name	Metabrom Q	
Product id	AS_8326_ICL2	
Revision date	07/09/2014	Revision: 12
Supersedes	02/01/2012	

### 7. Handling and storage

Handling	Avoid bodily contact. Use an appropriate monitoring instrument for methyl bromide in any area where it is being stored or handled. Move and transport containers with requisite care. Do not use hooks, rope sling, etc. to unload. Use hand or fork trucks to firmly cradle cylinders. Do not bump or drag them.
Storage	Store containers upright, in a secure manner, either outdoors under ambient conditions, or indoors in a well ventilated area, away from seeds, foods/feed-stuffs and human and animal habitation. Post as a pesticide storage area. Test periodically for leaks by halide leak detector.

# 8. Exposure controls / personal protection

#### Exposure Limits :

Components		ACGIH-TLV Data	OSHA (PEL) Data
METHYL BROMIDE 74-83-9		1 ppm skin , A4	C 20 ppm (C 80 mg/m <sup>3</sup> ),skin
Ventilation requirements	Ventilation must be sufficient to maintain atmospheric concentration below recommended exposure limit. Mechanical ventilation is recommended. Use local exhaust at source of vapour.		
Personal protective equipment:			
- Respiratory protection	For escap	<b>e</b> 11	apour canister. For any detectable aratus or supplied-air respirator with a
- Hand protection	DO NOT WEAR GLOVES when working with MBr because of the danger that liquid or concentrated vapour may be trapped inside them.		
- Eye protection	Splash-proof safety glasses. CONTACT LENSES SHOULD NOT BE WORN WHEN WORKING WITH THIS CHEMICAL. DO NOT WEAR GOGGLES		
<ul> <li>Skin and body protection</li> </ul>		ally designed protective clothing is av is boots, finger rings or adhesive ba	vailable. Do not wear gloves, Indages on hands when handling this
Hygiene measures	Do not eat, smoke or drink where material is handled, processed or stored. Wash hands thoroughly after handling and before eating or smoking. Safety shower and eye bath should be provided.		

### According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product name	Metabrom Q

Revision date	07/09/2014
Supersedes	02/01/2012

Revision: 12

# 9. Physical and chemical properties

Appearance	Colourless gas, odourless at low concentrations; sweetish odour at very high concentrations. Clear, colourless to straw-coloured liquid under pressure or below 3.5°C.
рН	Not available
Melting point/range	-94°C
Boiling point/range	3.5 - 4°C
Flash point	None
Evaporation rate (ether=1)	>1
Flammable/Explosion limits	
- Lower (% vol)	10
- Upper (% vol)	16
Vapor pressure	1420 mmHg ( 20°C)
Vapor density	3.3 (20°C)
Solubility:	
<ul> <li>Solubility in water</li> </ul>	0.132 gr/100ml at 25°C (partial pressure CH3Br - 73 torr)
	0.138 gr/100ml at 25°C (partial pressure CH3Br - 108 torr)
<ul> <li>Solubility in other solvents</li> </ul>	Infinitely soluble in most organic solvents
Partition coefficient	Log Kow - ~ 1.92
(n-octanol/water)	
Auto-ignition temperature	537°C
Decomposition temperature	~ 400°C
Viscosity	Not applicable
Explosive properties	Not available
Oxidising properties	Not available

# 10. Stability and reactivity

Reactivity Stability Possibility of hazardous reactions	No data available. Stable in sealed containers and under normal conditions No data available
Conditions to avoid Materials to avoid	Avoid contamination by water. Keep away from ignition sources. Strong oxidizers, aluminum, tin, zinc and magnesium metals and their alloys,
Hazardous decomposition products	natural rubber and certain types of plastics.

### According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Revision date	07/09/2014
Supersedes	02/01/2012

# 11. Toxicological information

Acute toxicity: - Rat oral LD50	liquid MBr in corn oil - 104 mg/kg microencapsulated MBr in corn oil - 133 mg/kg	
- Rat inhalation LC50	1175 mg/m³/8 hour	
- Mouse inhalation LC50	1540 mg/m <sup>3</sup> /2 hour	
- Dermal irritation (rabbit) - Eye irritation (rabbit)	Irritant Severe irritant	
Dermal sensitization	Exposure in human resulted in redness, congestion, dermatitis, itching, swollenareas and blistering.	
Mutagenicity	Mutagenic by the Ames Test MBr induced DNA damage in rat testis following inhalation exposure at 250 ppm (6 hours/day for 5 consecutive days). In vivo, MBr induced sister chromatid exchanges in bone marrow cells and micronuclei in peripheral erythrocytes of female mice exposed by inhalation for 14 days.	
Carcinogenicity	Studies conducted with MBr, exposing animals both by inhalation (rats & mice) and by oral route (fumigated feed, rats), showed that THERE WAS NO EVIDENCE OF CARCINOGENIC ACTIVITY. Not included in NTP 13th Report on Carcinogens IARC Group 3 (animal inadequate evidence, human no data available).	
Reproductive toxicity	In a two generation reproductive study via inhalation in albino rats, the NOEL was 90 ppm.	
Specific Target Organ Toxicity (STOT) - Single exposure	May cause respiratory irritation	
Specific Target Organ Toxicity (STOT) - Repeat exposure	<ul> <li>Chronic exposure to low concentrations of methyl bromide may produce central nervous system effects. Signs include mental confusion, lethargy, inability to focus one's eye, incoordination and muscle weakness.</li> <li>Repeated skin contact may cause dermatitis.</li> </ul>	
Aspiration hazard	Not expected to occur	

### According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product name Product id Revision date Supersedes	Metabrom Q           AS_8326_ICL2           07/09/2014           02/01/2012	
Other	Single exposure vapour inhalation neurotoxicity study in rats:NOEL - 100 ppm Acute oral toxicity (single dose) study in Beagle dogs: Lethal dose - 500 mg/kg No clinical signs were observed at 1 mg/kg	
12. Ecological information		
Aquatic toxicity : - 96 Hour-LC50, Fish	3.9 mg/l (Rainbow Trout) 56.28 mg/l (Zebrafish)	
- 48 Hour-EC50, Daphnia magna	<b>na</b> 2.6 mg/l	
- 72 Hour-EC50, Freshwater algae	5 mg/l (Selenastrum capricornutum)-(MBr)	
Avian toxicity: - Oral LD50	~ 73 mg/kg (Northern Bobwhite)	
- Hydrolysis	Under laboratory conditions (MBr) Half-life at pH 5 - 256.7 hours Half-life at pH 7 - 253.9 hours Half-life at pH 9 - 357.3 hours	
Note:	Methyl bromide is listed in the Montreal Protocol as a controlled substance with an ODP (Ozone Depleting Potential) of 0.6.	

### 13. Disposal considerations

Waste disposal

Contact local and/or state environmental authorities to insure proper compliance. The recommended method is incineration. If a suitable designated combustion chamber is not available, return MARKED containers to supplier. Observe all federal, state and local environmental regulations when disposing of this material. Crush and bury empty cans.

According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

14. Transportati	on information
UN No.	1062
DOT	Proper shipping name: Methyl bromide Hazard Class 2.3: Poisonous gas Shipping description: Inhalation Hazard; Hazard Zone C Label: POISON GAS (2.3) RQ - 1000 lbs (MBr) Emergency Guide No.123 Marking: Marine Pollutant
	Not regulated as a marine pollutant for surface and air transport in non-bulk (<119 gallons) packagings.
IMDG	Proper shipping name: Methyl bromide Class: 2.3 Toxic Gases Label: TOXIC GAS (2) Mark: MARINE POLLUTANT
ICAO/IATA	Proper shipping name: Methyl bromide Class: 2.3 Cargo aircraft - Forbidden Passenger aircraft - Forbidden Marking: Environmentally hazardous
15. Regulatory i	nformation

USA	Reported in the EPA TSCA Inventory.
	This product is subject to registration under FIFRA

8622-55

- EPA Registration no.

According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product name Product id Revision date Supersedes	Metabrom Q           AS_8326_ICL2           07/09/2014           02/01/2012	
- Emergency overview in accordance to EPA Master Labe	DANGER IHigh acute toxicity Extremely hazardous liquid and vapor under pressure. Do not breathe vapor. Inhalation may be fatal or cause serious acute illness or delayed lung or nervous system injury. Liquid or vapor can cause serious skin or eye injury which may have a delayed onset. Do not get liquid on skin, in eyes or on clothing. Methyl bromide vapor is odorless and non-irritating to skin and eyes during exposure. Exposure to toxic levels may occur without warning or detection by the user. This pesticide is toxic to mammals, birds, fish, and aquatic invertebrates.	
Clean Air Act	Final rule to amend the accelerated phaseout regulations that govern the production, import, export, transformation and destruction of substances that deplete the ozone layer regulated under Title VI of the Clean Air Act Amendments of 1990. The EPA is creating an exemption from the consumption and production phaseout for quantities of methyl bromide that are used for quarantine and preshipment.	
CERCLA/SARA - 302 ext. haz. substances	This material contains hazardous substance as defined by CERCLA/SARA and the reportable quantity is 1000 lbs; 454 kg.	
- SARA 313	Methyl bromide is subject to the reporting requirements of section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 and of 40 CFR 372.	
- Massachusetts Right-to-Know	Listed	
Hazardous Substances list - New Jersey Right-to-Know Hazardous Substances list	Listed	
- Pennsylvania Right-to-Know Hazardous Substances list	Listed	
- Illinois toxic substances list	Listed	
- California-Prop 65	Under proposition 65, methyl bromide has been listed by the State of California as a reproductive toxin when used as a structural fumigant. When methyl bromide is used as a structural fumigant, the following labeling must be on the container: "Warning: This product contains a chemical known to the State of California to cause birth defects or other reproductive harm"	

According to OSHA Hazard Communication Standard 29 CFR 1910.1200 (GHS)

Product name Product id Revision date Supersedes	Metabrom Q           AS_8326_ICL2           07/09/2014           02/01/2012	
- Workplace Classification	This product is considered highly hazardous (HHC) under the OSHA Hazard Communication Standard (29CFR 1910.1200). The Threshhold Quantity (TQ) for this substance is 2,500 lbs.	
Canada	Listed in DSL This substance is listed under Part 1, Group 1 Substances in the National Pollutant Release Inventory (NPRI) for 2008. Information about this substance must be reported to the Minister of the Environment in accordance with subsection 46(1) of the Canadian Environmental Protection Act, 1999. This chemical is included on the current phase-out schedule of ozone-depleting substances under the Canadian Environmental Protection Act,1999.	
WHMIS hazard class	<ul> <li>A compressed gas</li> <li>D1A Very toxic material causing immediate and serious toxic effects</li> <li>D2B Toxic materials causing other toxic effects</li> <li>E corrosive material</li> </ul>	
EU	Regulated under Article 22 of EC Regulation No. 2037/2000 on substances that deplete the ozone layer.	
Japan	ENCS no. 2-39 ISHL no. 2-39	
Australia	Listed in AICS	
New Zealand Inventory	Listed in NZIoC	
China - China inventory	Listed in IECSC	
Hong Kong	Dangerous Goods - Category 2 - Compressed Gases (MBr) Ozone Depleting Substances - Part 6 scheduled substance (MBr)	
Mexico	Listed in the National Inventory of Chemical Substances (INSQ).	
Korea	Listed in ECL (KE-03676) Toxic chemical No.97-1-113, 1% or more in mixtures (MBr)	
Taiwan	Harmful substances	
Philippines	Listed in PICCS

#### Health, Safety & Environment Policy

We will strive to ensure that our operations and products meet the needs of the present global community without compromising the ability of future generations to meet their needs We accept that the success of our business is dependent on the supply of products and services that will benefit society whilst ensuring human safety and protection of the environment and natural resources Within the framework of our commitment to the Responsible Care program, we will provide a healthy and safe work environment for employees and will responsibly manage our products at all stages of their life cycle in order to protect human health and the environment whilst maintaining high production standards of operation

TO MEET THIS COMMITMENT WE WILL: Comply with or exceed applicable national and international regulatory requirements and other requirements to which we subscribe Communicate openly and actively encourage dialogue with employees, customers and community concerning our products and operations Implement documented management systems consistent with and for promotion of the Responsible Care ethics

Develop and supply products that can be manufactured, transported, used and disposed of safely whilst best meeting the needs of our customers Regularly assess, continually improve and responsibly manage health, safety and environmental risks associated with products and processes throughout their life-cycles Share knowledge and expertise with others and seek to learn from and incorporate improved practices into our own operations

Educate and train employees, contractors and customers to improve their HSE performance Communicate up-to-date information to enable our workers, customers and other interested parties to handle our products in a safe and environmentally responsible manner Endeavor to work with customers, suppliers, distributors and contractors to foster the safe use, transport and disposal of our chemicals Support Product Stewardship programs in cooperation with customers, distributors and transporters

Although the information and recommendations set forth herein (hereinafter "information") are presented in good faith and believed to be correct as of the date hereof, ICL-IP America Inc. makes no representations as to the completeness or accuracy thereof. Information is supplied upon the condition that the persons receiving same will make their own determination as to its safety and suitability for their purposes prior to use. In no event will ICL-IP America Inc. be responsible for damages of any nature whatsoever resulting from the use of or reliance upon information. NO REPRESENTATIONS OR WARRANTIES, EITHER EXPRESSED OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OF ANY OTHER NATURE, ARE MADE HEREUNDER WITH RESPECT TO INFORMATION OR THE PRODUCT TO WHICH THE INFORMATION REFERS.
